## Introduction

This document describes the use of the WEB application forms (further - application) for the Erasmus+ Programme actions managed by the National Agencies in the Programme Countries. <https://webgate.ec.europa.eu/web-eforms>

For simplicity reasons, we will call them "decentralised actions" in this guide.

### **Please note:**

The quality of your application will be assessed against the award criteria specified in the Programme Guide. More information can be found under [http://ec.europa.eu/programmes/erasmus-plus/resources\\_en](http://ec.europa.eu/programmes/erasmus-plus/resources_en)

Make sure that you provide all the necessary information in your application. This allows experts to assess all elements of each award criteria. If you would like more information on how experts will assess the award criteria, please consult the other supporting documents, which are available at the Erasmus+ website at [http://ec.europa.eu/programmes/erasmus-plus/resources/documents-for-applicants/model-application-forms\\_en](http://ec.europa.eu/programmes/erasmus-plus/resources/documents-for-applicants/model-application-forms_en)

## Technical requirements and settings needed to use the WEB application form

Web Application Forms are built on the latest standards of the web platform. The forms support all of modern browsers. The forms have been successfully tested on following browsers:

- Internet Explorer 11.0
- Firefox 45.7
- Chrome 56.0

The Web Application Forms are online applications and therefore need fast constant Internet connection to action. It is not possible to work offline with the forms.

Printer and scanner devices will be needed to complete submission of Web Application Form. Additionally PDF reader software will be required (most preferably Adobe Reader) to print, sign and scan the Declaration of Honour.

## Application Access

### **Important:**

If you are a new user, you must create an EU Login account before accessing the WEB application forms. Please use the following link

<https://webgate.ec.europa.eu/cas/eim/external/register.cgi>

In the drop down list, each National Agency is identified by a unique code accompanied by the name of the country in the national language:

National Agency of the Applicant Organisation

PL01 (POLSKA)

DK01 (DANMARK)

EE01 (EESTI)

EL02 (ΕΛΛΑΔΑ (ELLADA))

## Section 2: Participating Organisations

### Using your PIC in an electronic form

All participating organisations should be registered in Participant Portal and use their PIC (Participant Identification Code) when filling-in an application. Check [User's Guide \(http://ec.europa.eu/programmes/erasmus-plus/resources/documents-for-applicants/model-application-forms\\_en\)](http://ec.europa.eu/programmes/erasmus-plus/resources/documents-for-applicants/model-application-forms_en) and Participant Portal for Education, Audio-visual, Culture, Citizenship and Volunteering for more details <http://ec.europa.eu/education/participants/portal/desktop/en/home.html>.

Once you and your partner organisations or consortium members have a PIC, you can start using these identifiers in your application. Enter the PIC in the **PIC field**. Legal name and country will then be filled in automatically.

As you can see in the screenshot above, there is still a red exclamation mark  next to the PIC. To resolve, you have to fill in Organisation details. Click the **menu button**  and select **Organisation Details**.

## Update organisation details

Some fields here are prefilled with the data from Participant portal but you still need to fill in all information indicated with red exclamation marks or red highlighted fields such as the **Associated Persons** information or details in the **Background and Experience**.

Below this is a navigation bar with four tabs: 'Participants' Profile' (highlighted with a red box and a green checkmark), 'Participants with Fewer Opportunities', and 'Learning Outcomes'. The 'Participants' Profile' section contains two text input fields. The first field is for describing the background of participants, and the second is for general information on age and gender balance. A red arrow points to the second field. Below these fields is the 'Participants with Fewer Opportunities' section, which includes a dropdown menu for the question 'Does your project involve participants facing situations that make their participation in the activities more difficult?'. The 'Learning Outcomes' section is at the bottom, with a text input field for 'Which competences (i.e. knowledge, skills and attitudes/behaviours) are to be acquired/improved by participants in your project?'.

### Preparation

What will be done in preparation, by your organisation and, if relevant, by your partners before the youth seminar(s) take place? How will the participants be involved in defining or being aware of the topics, the activities and the methodology of the seminar(s)? If applicable, how do you intend to cooperate and communicate with your project partners, decision-makers and other relevant stakeholders?

Practical Arrangements

How will the practical and logistic matters of the project be addressed (e.g. travel, accommodation, insurance, safety and protection of participants, visa, preparatory meetings with partners etc.)?

## Section 6: Activities

The information provided below is common for the applications described in this document. However, there is specific content for every application that is referred in the detailed section designated for each application.

### *Distance Band calculation*

In order to select the correct distance band for the travel, you need to get the distance calculated by the web tool that you can access via this hyperlink:

[http://ec.europa.eu/dgs/education\\_culture/tools/distance\\_en.htm](http://ec.europa.eu/dgs/education_culture/tools/distance_en.htm)

With this tool you can enter the **Origin and Destination cities** in two given countries and get the calculation of the distance in one direction. If the participant needs to go to a farther city to get to his/her final destination (to reach the airport for example) it is possible to take this city as departure point.

On the basis of this information you have to select the corresponding distance band from the drop down menu in your application. The distance band chosen will determine the grant amount available for that distance, as specified in the Erasmus+ Programme Guide.

Please note that the distance bands correspond to the distance from the place of origin to the place of destination and not both ways. The unit cost is calculated on the basis

of one way distance; however, the related grant is a contribution to the expenses for travelling in both directions.

#### *How to use the distance calculator*

In order to use the calculator, you should:

1. Begin typing a location in the "From:" box when provided with the list of locations, click on the correct one.
2. Repeat the procedure for the "To:" box.
3. Click "Calculate" to obtain the distance, provided in kilometres.

From:

The map displays a route from Cologne, Germany to Wroclaw, Poland. The route is marked with a red line across a map of Central Europe. The map includes labels for various cities and regions, such as Hannover, Potsdam, Berlin, and Wroclaw. The route starts in Cologne and ends in Wroclaw, passing through several intermediate locations.

#### **Please note:**

You must choose a specific city, town, or village and not a country. If you do not click on an option in the "From" and "To" boxes, no result will be displayed. If you receive a distance of NaN, please refresh your page and follow the instructions on the site. [http://ec.europa.eu/dgs/education\\_culture/tools/distance\\_en.htm](http://ec.europa.eu/dgs/education_culture/tools/distance_en.htm)

For detailed information on the funding rules, please consult the Erasmus+ Programme Guide.

If you are having difficulties viewing the distance calculator, you can access an alternate version on this site [http://ec.europa.eu/assets/eac/erasmus-plus/distance/dc\\_en.html](http://ec.europa.eu/assets/eac/erasmus-plus/distance/dc_en.html)

- Instructions: 'Please download the Declaration of Honour, print it, sign it by the legal representative and attach it'.
- A button labeled 'DOWNLOAD DECLARATION OF HONOUR' (highlighted with a red box).
- A table with columns 'File Name' and 'File Size (kB)'. Below the table, a message states: 'Declaration of Honour is required.' (highlighted with a red box).
- A button labeled 'ADD DECLARATION OF HONOUR' (highlighted with a red box).
- Instructions: 'Please attach all relevant documents'.
- A table with columns 'File Name' and 'File Size (kB)'. Below the table, a message states: 'Number of attachments (including the Declaration of Honour) is 10 and the maximum total size is 10240 kB'.
- A button labeled 'ADD FILE' (highlighted with a red box).

A red arrow points from the 'ADD DECLARATION OF HONOUR' button to the 'ADD FILE' button. At the bottom left, a status bar shows: 'Saved (Local Time) 12 Jul 2017 14:14:48 by ECAS EAC\_TRAINING' and buttons for 'PDF' and 'SUBMIT'.

### Annexing a Declaration of Honour

One of the files you are required to annex to your application form is a duly signed **Declaration of Honour**.

1. You have to download it via the **DOWNLOAD DECLARATION OF HONOUR** button.
2. **Print** it and **have it signed** by the person who is legally authorised to represent your organisation. Please note that the document will be downloaded in the language which is chosen on the right top corner of your application.
3. Once signed, **scan** it and upload it via the **ADD DECLARATION OF HONOUR** button
4. Please check if your National Agency accepts digital signature. If yes, you could use it.

## Annexing a Timetable of Activities

If you plan to organise several activities within the same project, you need to:

1. Fill-in a timetable for each activity,
2. Print and group all the activity tables in one document
3. Scan the single document and attach it.

Alternatively you can

1. Fill-in a timetable for each activity in a single excel document with one activity per worksheet
2. Attach the excel file containing all activity timetables.

This way you can fit with available slots for annexes.

The same procedure must be followed for attaching the mandates of participating organisations involved in the project.

Once the Declaration of Honour has been attached, the "Annexes" tab in the left hand side of your screen will be marked with a green check.

Concerning the attachment of supporting documents, you should only attach the documents that are required for the type of organisation in question. For further reference, please check the national requirements that your National Agency may have set and the applicable rules for your type of organisation.

### Please note:

In case you are applying for a grant exceeding 60.000 EUR and your organisation is not a public body or an international organisation, you must have uploaded the required documents to give proof of your financial capacity in the Participants' Portal where you registered your organisation. These documents must be available to your National Agency at the latest before signing the grant agreement in case your project is selected.

## Technical guidelines for Annexes

There are some constraints for adding annexes, such as the allowed number of attachments, the file types used and the total size of all attached files.

- Maximum number of files: 10
- Maximum size of all files combined: 10,240 kB; meaning you can have files of different sizes as long as their total combined size does not exceed this limit.

If you do exceed those limitations your form will not be valid and you will be unable submit the application.

File types allowed are:

- PDF
- DOC (a pre-2007 word document)
- DOCX (a post-2007 word document)
- XLS (a pre-2007 excel file)
- XLSX (a post-2007 excel file)
- JPG (an image file in jpeg format)
- TXT (a text document)
- ODT (open office word processor document)
- ODS (open office spreadsheet document)
- CDOC,DDOC,BDOC ( electronic signature)

### **Tip:**

If you need to attach a lot of documents to your electronic application form, you should scan, group and attach them so that they fit the 10 available slots for annexes. An example would be the participating organisations' mandates. You can perfectly group all scanned mandates into a single PDF file and attach it to the form.

### *Some advice on how to decrease the total size of documents*

Often the big size of a document is due to images. These images can be a direct file or attached inside a document like a Word document or PDF document.

- Before implementing any of these following solutions, please make a backup copy of your documents.
- After applying the solutions, please check the quality of the result and be sure that the documents are still readable without difficulty.

There are a lot of free online tools to compress i.e. big PDF files. You can easily find those by searching "compress PDF file" on the internet. You can use the most convenient one for your criteria: using your language, with more or less warranty of confidentiality, and so forth.

### DOC/DOCX Word document with image embedded

Recent versions of MS Word have an option to compress one selected image or all images in the document. The place of this option is changing from one version to another, so we cannot explain here how to reach it. Please have a look on your documentation or on Internet for your specific version.

### ODF documents

Since version 4.0, Libre Office has the option to compress all images like Microsoft Word.

### Scanned documents

If you still have the original file, you can consider rescanning the document with a lower quality. This can be done by answering these questions:

- Do you need colour? Is grayscale or B/W enough?
- Do you need a good resolution (ppm/ppi)? Generally 300 dpi are enough for images and even less for text.
- Have you saved the file in a compressed format?
- Depending on the tool you use it could be difficult to know the answer and you may need to make some different tests to compare the resulted file size.
- Please note that \*.JPG is a compressed image file format.
- The output in PDF could be compressed or not (if it is not compressed, you can apply the solution above).

### Remember

Any additional effect to reduce the size of your documents will also make the submission faster as less data is needed to transfer your data online.

## Section 11: Checklist

After you have completed the application form you need check the points listed in the **Checklist** to make sure that your application fulfils all basic requirements before submitting it to the National Agency.

Review all the items and tick the check boxes accordingly.

The screenshot shows a web form titled "Checklist". Below the title, it says: "Before submitting your application form to the National Agency, please make sure that it fulfils the eligibility criteria listed in the Programme Guide and check that:". There are three checkboxes, each with a red box around it. The first checkbox is labeled "All relevant fields in the application form have been completed." and is checked. The second checkbox is labeled "You have chosen the correct National Agency of the country in which your organisation is established. Chosen NA is: PL01 (POLSKA)" and is checked. The third checkbox is labeled "If you have identified partners, the mandates of each partner to the applicant signed by both parties have been uploaded (this is not compulsory at this stage)" and is checked. Below the checkboxes is a section titled "Data Protection Notice". It contains a paragraph about the processing of personal data and a list of bullet points. At the bottom of the section, there is a checkbox labeled "I agree with the Data Protection Notice" which is also checked.

**Checklist**

Before submitting your application form to the National Agency, please make sure that it fulfils the eligibility criteria listed in the Programme Guide and check that:

- ☒ All relevant fields in the application form have been completed.
- ☒ You have chosen the correct National Agency of the country in which your organisation is established. Chosen NA is: PL01 (POLSKA)
- ☒ If you have identified partners, the mandates of each partner to the applicant signed by both parties have been uploaded (this is not compulsory at this stage)
- ☒ A timetable for each activity to be implemented has been uploaded

**Data Protection Notice**

The application form will be processed electronically. All personal data (such as names, addresses, CVs, etc) will be processed in pursuant to Regulation (EC) No 45/2001 on the protection of individuals with regard to the processing of personal data by the Community institutions and bodies and on the free movement of such data. Any personal data requested will only be used for the intended purpose, i.e.:

- In the case of grant application forms: the evaluation of your application in accordance with the specifications of the call for proposals, the management of the administrative and financial aspects of the project if selected and the dissemination of results through appropriate Erasmus+ IT tools. For the latter, as regards the details of the contact persons, an unambiguous consent will be requested
- In the case of application for accreditation forms: the evaluation of your application in accordance with the specifications of the call for proposals.
- In the case of report forms: statistical and financial (if applicable) follow-up of the projects.

For the exact description of the collected personal data, the purpose of the collection and the description of the processing, please refer to the Specific Privacy Statement (see link below) associated with this form [http://ec.europa.eu/programmes/erasmus-plus/documents/eplink-eforms-privacy\\_en.htm](http://ec.europa.eu/programmes/erasmus-plus/documents/eplink-eforms-privacy_en.htm)

☒ I agree with the Data Protection Notice

Once all fields have been ticked, the "Checklist" tab in the left hand side of your screen will be marked with a green check.

## Submitting an application

If all sections of your application form are valid (marked with a green check) and you annexed all documents needed, you can submit your form to your National Agency.

The submission of an electronic application form is done by using the **SUBMIT** button on the left hand bottom of the screen.

Note: This button will only be active if all sections in your applications are filled in completely and marked with a green check.

A screenshot of the application form status bar. It shows a list of sections with green checkmarks indicating they are valid: Context, Participating Organisations, Project Description, Participants' Profile, Preparation, Activities (marked with a red triangle), Follow-up, Budget, Project Summary, Annexes, and Checklist (highlighted in yellow). Below the list, it says 'Saved (Local Time) 03 Mar 2017 10:39:43 by Kaja Pawlak'. At the bottom, there are two buttons: 'PDF' and 'SUBMIT' (highlighted with a red box).

## Submission history

The **Submission History** you will find in tab **My Applications**.

A screenshot of the application submission interface. It shows a blue header with a home icon. Below the header, there are two tabs: 'Open Calls' and 'My Applications' (highlighted with a red box).

Applications to the National Agency can only be done online. You don't have to send a printed version of the application, nor of the attachments. The print option available in the web form is intended for your own use.

## Submitting the application more than once

The form will keep track of all your submissions and their status in the table **Submission Summary**.

The **Time column** shows you the date and time at which you submitted your form according to the Brussels time zone.

If you want to do any changes before submitting the form or after submission but before the submission deadline, Use the **MENU** button next to the application, select **Reopen** and the form will be open for editing.

### Late submission of the application

If you miss the official application deadline you will not be able to apply.

However, an exception can be made if you can prove that you tried to apply before the official application deadline and were not able to do so due to technical reasons.

In that case your National Agency may still consider your application, if the following three conditions are met:

1. The date and time of your last submission attempt as mentioned in the electronic application form **Submission Summary** section are before the applicable official application deadline.
2. You have informed your National Agency within 2 hours after the application deadline (Brussels time). After this time, your application can no longer be considered.
3. You have sent to your National Agency within 2 hours after the application deadline (Brussels time), by email, your complete application form unmodified after your submission attempt.

## Sharing an application

You have the possibility to share the application as read only to your colleagues or partners by entering the email of the person whom you give access to. Please note that any person accessing the form will need an EU login account for the email you entered.

1. Click **Sharing History** in the left side menu
2. Click **SHARE APPLICATION**
3. Enter the **User Email** and a Comment (not mandatory)
4. Click **SHARE**

## How to fill the electronic application form (KA347)

Concerning KA347, there are some differences regarding the main sections described above as part of the general guidelines that need to be filled-in for the application. Once the user clicks on APPLY button, the following sections are displayed (see the differences highlighted in bold):

- Context
- Participating Organisations
- Project Description
- Participants' profile
- Preparation
- **Activities**
- Follow- up
- Budget
- Project Summary
- Annexes
- Checklist

In this chapter, you can find below, the specifications from a user perspective regarding the sections that have particular content or behaviour different from the general specifications described in the first chapter of the guidelines.

## Section: Activities

In this part of the application, you will encode information about the main activities of the project, including the amount of EU grant that you are requesting to implement them. In the first step you have to answer the question on the **Main Activities**.

## Distance Band

*Distance Band calculation (see common section content "[part 6: Activities](#)" of General Requirements for KA347, KA205, KA105)*

## Travel days

The distance band calculator calculates the actual distance. As a consequence, you may get a situation whereby travelling from one country to another may result in the use of different distance bands depending on the actual place of origin and arrival for each mobility. In such cases, you can, if you wish, create several flows with the same Countries of Origin and Destination in order to get the breakdown that you will need to indicate different distance bands in the budget section.

Travel days  Total No of Participants  No of Participants with Special Needs  No of Participants with Fewer Opportunities  No of Young Participants  No of Accompanying Persons

## Invalid flow duration for a given activity type

Each flow within an activity type is constrained by several rules that guarantee the respect of the eligible duration per type of activity.

Please make sure you do not enter duration under the minimum or over the maximum allowed.

## Budget

Now that you have entered the details for flow, it's time to look into the budget section where the funds needed to support the flow are to be specified.

One of the most important principles of Erasmus+ is the wide use of unit cost based grant items. In the case of unit costs, you do not have to calculate the real cost of expenses, but instead indicate the number of units (number of days or number of participants) for a given grant item.

Based on that number, the application then calculates automatically the grant amount that can be requested, multiplying the number of units with the unit cost concerned.

You can find all information in the Programme Guide to verify the type of costs eligible under each grant item, the unit cost levels and rules of allocation.

## Travel

You need to specify how many participants will receive a grant for travel and how many participants will receive Top-up for Expensive Domestic Travel.

To do this, enter the mandatory fields **No of Participants** and **Participants Receiving the Top-up**.

The fields **Travel Grant per Participant**, **Top-up for Expensive Domestic Travel** and **Total Travel Grant** will be automatically filled in.

The application will retrieve the proper travel grant per participant based on the encoded distance band for the flow.

If duly justified in the application form, a participant can be entitled to receive two top-ups for expensive domestic travel costs to participate: one to reach a main HUB/airport and/or a train/bus station within the country of origin and one more to reach a remote final destination within the receiving country. If a participant receives two top-ups, then he should be counted twice when calculating and encoding the number of participants receiving the top-up.

Some participants may not need to receive a grant for travel purposes. In that case you can decrease the **No. of Participants** and fund less than the total number of participants indicated previously:

## Organisational Support

You also have to specify how many participants will receive a grant for **Organisational support**.

Enter the amount of people in the **No of Participants** field. The other fields will be updated automatically.

The screenshot shows a form titled "Organisational Support". It contains four input fields: "Duration(days)", "Grant per Participant", "No of Participants", and "Total Organisational Support Grant". The "No of Participants" field is highlighted with a red border. Each field has a small question mark icon to its right.

Please note that here you can request funding for a lower number of participants by changing the units which in this case are the number of participants.

The application will retrieve the proper grant per participant based on the County of destination and calculate the total Organisational Support grant based on duration and number of participants.

## Special Needs' Support

This budget section is different from the ones mentioned above: the application will not perform any automatic calculations. You have to indicate the additional amount you wish to receive as a grant for those activities that include participants with special needs.

To add the Participants with special needs use the **ADD COST** button in the section **Special Needs' Support** in the **Activity Details** screen for the specific activity. You will have to enter the number of participants, describe the costs needed and the total grant requested.

### **Please note:**

**Participants with special needs** refer exclusively to persons with disabilities as specified in the Erasmus+ Programme Guide. The number of participants indicated per activity cannot exceed the total number of participants with special needs mentioned in **Activities' Details** section.
