<b>Type of information (beginning of the academic year / teaching activity / holidays / examinations / end of the academic year)</b>	<b>Dates or periods</b>
Beginning of the academic year	1 October is assumed as the official start of the new academic year. However, due to the autonomy of higher education institutions (HEIs), starting dates vary from one institution to another.
Teaching activity and holidays	The academic year consists of two semesters (winter and summer). However, the length of teaching activity (lectures and practical trainings) differs from one HEI to another due to their autonomy.  Examinations dates, holidays (other than the officially announced public and religious holidays) are determined at institutional level.
Examinations	The examination dates are determined at institutional level, however, they are usually scheduled within the period starting from mid-January to mid-February at the latest (end of the winter semester), and within the period from mid-June to mid-July.  Students who fail to take or pass an exam on the date within the indicated period, are supposed to take/re-take the exam usually in early September.
End of the academic year	HEIs are autonomous. The academic year generally ends between end-June and mid-July.
Public holidays (occasional/national/religious holidays)	Certain dates are regarded as official holidays (religious, national, public): 22 September 2017 24 December 2017 3 March 2018 1 May 2018 6 May 2018 24-25 May 2018  Students have a break for about 2 weeks for Christmas and Easter holidays. ### Additional notes

Although different universities in Croatia (eight in total) – and individual faculties and schools in some universities – are fully autonomous in deciding on their own individual academic calendar, the calendar provided above is the actual calendar for largest Croatian university, University of Zagreb, and is the most common template.

The academic year, along with the teaching activity in the first ('winter') semester, generally starts at the end of the September or beginning of October. All faculties traditionally have a two-week Christmas and New Year break in the last week of December and first week of January. After this break, the teaching activity of the first semester is resumed and it goes on until late January. The winter exam session generally takes place between the end of January and mid- or end of February. Teaching activity in the second ('summer') semester begins in late February and lasts until late May of early June. The summer exam session takes place from mid-June to mid-July, followed by a summer break until late August, when the autumn exam session is scheduled. It ends mid or late September.

Moreover, majority of the HEIs do not have their 2017/18 calendars available on their webpages at the moment of filling in the current update, so calendars from previous years and common practices were used to generate expected and approximate calendar for the next academic year.

According to the Law on HE, article 79, the academic calendar is comprised of 30 working weeks.

There is 6 non-working public holidays in Serbia.

### Additional notes

Under The Further and Higher Education (Scotland) Act 1992, higher education institutions have autonomy. They decide how to divide the academic year, when and how many holidays to have, when and how exam periods should be organised. Traditionally, higher education institutions have started in September/October and finished in May/June. Holidays during the year would be at Christmas and Easter (for approx. a month each) and exams would be at the end of the final term. However, many HEIs have moved to a semester system where the year is split into separate teaching blocks with shorter holidays during the year and exam periods twice yearly. Under this system students can start the year at different times e.g. in September or in January. There is no fixed number of academic days or academic holidays.

## The Organisation of the Academic Year in Europe – 2017/18

The academic calendar contains national data on how the academic year is structured (beginning of the academic year, term times, holidays and examination periods). Differences between university and non-university study programmes are also highlighted. The information is available for 37 countries.
