Event Participants:

This event is aimed at individuals and organisations that are active in the field of VET, be they totally new to Erasmus+ or already having some experience in European mobility and/or partnership actions. Participants should already have an idea for transnational collaboration that they would like to further develop and progress at this event. The event has dual ambitions and will initially provide an opportunity for thematic exchange, inviting participants to share their own practices, goals and experiences of mobility and wider collaboration in the field of VET. Beyond this, participants will be encouraged to consider possible future partnerships and areas of collaboration, providing for increased and extended participation in Erasmus+ in 2020... and beyond.
