Key action 1

Learning mobility of individuals

Mobility in the fields of education, training, youth and sport is the flagship activity of the Erasmus+ programme, giving people of all ages and all levels of education and training the opportunity to play an active role in the employment market and in society as a whole and to contribute to more social inclusion and a strengthened European identity.

The action concerns:

- + **School pupils** interested in an individual mobility or a group mobility abroad
- + **Young people** wanting to take part in youth exchanges, youth participation or DiscoverEU activities
- + **Apprentices, learners and recent graduates engaged in vocational education and training (VET)** wanting to carry out traineeships at companies or vocational institutes in Europe and beyond, to participate in skills competitions or to realise a group mobility abroad
- + **Students, doctoral candidates and recent graduates of the higher education sector** interested in participating in study periods or traineeships abroad, in Europe and beyond, as well as in blended intensive programmes
- + **Adult learners** wanting to benefit from personal development or substantial improvement of key competences by means of an individual or a group mobility
- + **People working in the fields of education, training and youth**, willing to participate in teaching and training assignments and staff training activities,

as well as **higher education institutions' staff** willing to participate in blended intensive programmes

- + **Experts invited by education and training institutions** (except in higher education) to help these institutions improve their teaching and learning methods
- + **Teachers and educators in training** wanting to do their traineeship abroad
- + **Coaches and other staff** (both paid staff and volunteers) in grassroots sports wanting to improve their competences and qualifications and thus contributing to the capacity-building and development of sport organisations.

Funding may be requested via either of these procedures:

- + Accredited organisations can submit their grant requests at an annual deadline
- + Non-accredited organisations have access to standard application deadlines

What is an Erasmus accreditation?

The Erasmus accreditation could be compared to an entry ticket or a membership card for the Erasmus+ programme's mobility action. Obtaining an accreditation makes it easier for organisations to secure funding for Erasmus+ mobility projects. Organisations only need to be accredited once to benefit from a stable source of funding for the whole duration of the 2021-2027 Erasmus+ programme and a simplified evaluation process. Applications for accredited mobility projects must be submitted in response to the annual calls for proposals.

Deadlines for submission of applications to the National Agencies (at 12.00 noon, Brussels time):

Mobility of individuals in the fields of education and training (accredited organisations)	19 February 2025
Mobility of individuals in the field of youth (accredited organisations)	12 February 2025
Mobility of individuals in the fields of school education, VET and adult education (non-accredited organisations)	19 February 2025 / 1 st October 2025

€26.2 billion EUR for education, training, youth and sport

Erasmus+ is the EU programme to support education, training, youth and sport for the period 2021-2027. Through lifelong learning, Erasmus+ enhances the educational, professional and personal development of people in education, training, youth and sport in Europe and beyond. Thereby Erasmus+ contributes to sustainable growth, quality jobs and social cohesion, to driving innovation, and to strengthening European identity and active citizenship. The programme thus shall be a key instrument for the construction of a European Education Area: it supports the implementation of the European strategic cooperation in the field of education and training, with its underlying sectoral agendas, fosters youth policy cooperation under the Union Youth Strategy 2019-2027 and develops the European dimension in sport.

The actions in the fields of education, training, youth and sport are organised in a framework based on 3 key actions

Key action 2

Cooperation among organisations and institutions

Partnerships for cooperation pave the way for innovative practices, cooperation, and exchanges of experience at European level.

Partnerships for cooperation are open to any type of organisation active in the field of education, training, youth, sport and other socio-economic sectors.

There are two types of partnerships for cooperation, depending on their specific aims and composition:

Cooperation partnerships aim at:

- + Increasing quality in the work, activities and practices of organisations and institutions involved, opening up to new actors, not naturally included within one single sector
- + Building capacity of organisations to work transnationally and across sectors
- + Addressing common needs and priorities in the fields of education, training, youth and sport

- + Enabling transformation and change (at individual, organisational or sectoral level), leading to improvements and new approaches, in proportion to the context of each organisation.

Small-scale partnerships aim at:

- + Attracting and widening access for newcomers, less experienced organisations and small-scale actors to the programme
- + Supporting the inclusion of target groups with fewer opportunities
- + Supporting active European citizenship and bringing the European dimension to the local level.

In addition, the above-mentioned objectives of cooperation partnerships also apply to small-scale partnerships, proportionally to the scope and volume of each project.

Deadlines for submission of applications:

Cooperation partnerships in the fields of education, training and youth	5 March 2025 (at 12.00 noon, Brussels time)
Small-scale partnerships in the fields of education, training and youth	5 March 2025 (at 12.00 noon, Brussels time)
Partnerships in the field of sports and partnerships in the fields of education, training and youth submitted by European NGOs	5 March 2025 (at 17.00, Brussels time)
Small-scale partnerships in the field of sports	5 March 2025 (at 17.00, Brussels time)
<i>Possible 2nd round for small-scale partnerships (in the fields of education, training and youth) and cooperation partnerships (in the fields of education, training and youth) if there is budget available after 1st round (TBC)</i>	<i>1st October 2025</i> (at 12.00 noon, Brussels time)
